By Osman Kaplan, Oznur Kalender

Tughra Books. Hardback. Book Condition: new. BRAND NEW, Animal Wonders of the Sky, Osman Kaplan, Oznur Kalender, This book is suitable for ages 9 to 12 years. Who wouldn't want to fly? Despite our unique status as human beings, we do not possess the ability to lift our feet off the land like birds do. Having inspired us to build aeroplanes and helicopters, birds and other flying animals like bees, dragonflies, and mosquitoes have many other skills, too. With illustrations, this book presents geese helping each other in the sky, the secretary bird hunting snakes, woodpeckers digging nests in trees, the albatross with a huge wingspan, and the honey guide co-operating with the badger to feed on the wax of hives.

### Reviews

*This book is definitely not straightforward to get started on studying but extremely exciting to read. It is really simplistic but shocks in the 50 percent of the ebook. Once you begin to read the book, it is extremely difficult to leave it before concluding.*

*This publication is amazing. It is definitely basic but shocks in the fifty percent of your publication. You wont feel monotony at anytime of your own time (that's what catalogues are for concerning if you question me).*
