By -

SLACK Incorporated, United States, 2014. Paperback. Book Condition: New. 254 x 175 mm. Language: English . Brand New Book. Are you looking for concise, practical answers to those questions that are often left unanswered by traditional paediatric ophthalmology references? Are you seeking brief, evidence-based advice for complicated cases or controversial decisions? Curbside Consultation in Pediatric Ophthalmology provides quick answers to the tricky questions most commonly posed during a curbside consultation between paediatricians. Dr. Rudolph Wagner has designed this unique reference which offers expert advice, preferences, and opinions on tough clinical questions commonly associated with paediatric ophthalmology. The unique QA format provides quick access to current information related to paediatric ophthalmology with the simplicity of a conversation between two colleagues. Numerous images, diagrams, and references allow readers to browse large amounts of information in an expedited fashion. Some of the questions that are answered: How do I make the diagnosis of amblyopia? How can I differentiate a true strabismus from a pseudo-strabismus? How do I diagnose and treat corneal abrasions? Does patching remain an important component of therapy? What is naso-lacrimal duct obstruction? How is it managed? When should I refer these children? How can I determine if a red eye...
