

## Physiocracy, Antiphiysiocracy and Pfeiffer

---

By -

Springer-Verlag New York Inc. Paperback. Book Condition: New. Paperback. 184 pages. Dimensions: 9.2in. x 6.1in. x 0.4in. Physiocracy, or the economic theory that a nation's wealth comes from agricultural and land development, was a popular school of thought in France in the 18th century. The contribution and significance of the Physiocrats and Antiphiysiocrats are explored in detail through chapter contributions by economists, philosophers, and social historians. The book concludes that neither the Physiocrats, nor the Antiphiysiocrats were pure profit maximizers and that they all had the well-being of the commonwealth in mind. It brings to light previous studies only conducted in German and is the first analysis of Pfeiffer in a century, making the book of interest to any student or scholar of political economy and the history of economic thought. The contribution and significance of the Physiocrats and Antiphiysiocrats are explored in detail through chapter contributions by economists, philosophers, and social historians. ### Reviews

*Extensive information for book fans. It is written in basic words and never hard to understand. It is extremely difficult to leave it before concluding, once you begin to read the book.*

-- **Otis Wisoky**

*This publication is great. It is full of wisdom and knowledge. You will not really feel monotony at any time of the time (that's what catalogs are for relating to when you ask me).*

-- **Dr. Everett Dicki DDS**
